COURSEWORK / SKILLS

- | | | | |
|--------------|--------------|-----------|-----------|
| • React.JS | • Express.JS | • MongoDB | • Webpack |
| • JavaScript | • Redux | • MySQL | • GIT |
| • Node.JS | • CSS3 | • Oracle | • Next.JS |

EXPERIENCE

Senior UI Developer at TCS | React, Node.js, Remix, Openshift, Azure DevOps **Aug 2024 - Present**

- **Metlife Turkey Team:** Worked as a UI Developer focusing on **React** and **Node.js** using the Remix framework
- **Played a key role** in the migration project from Docker to Openshift, fixing critical bugs during the process.
- **Led the UI development team**, creating custom hooks for insurance claim functionality.
- Collaborated with cross-functional teams to ensure smooth migration and improved application performance.
- **Skills Used:** React, Node.js, Remix, Openshift, Azure DevOps.
- **Metlife API Team:** Worked as a React Developer, enhancing the **Metlife Documentation Page** functionality based on client requirements. Utilized **Anotra** and JavaScript to deliver customized solutions.
- Implemented CI/CD pipelines in **Azure DevOps** to streamline deployment processes and improve development efficiency.
- **Skills Used:** React, JavaScript, Anotra, Azure DevOps.

Frontend Developer at CustomerXPS | JS, TS, Redux, Reactjs, Rest API **Apr 2021 - Aug 2024**

- **Created a Real-Time Monitoring React app** for detecting bank transaction fraud. Developed screens for bulk data handling, including a dashboard for case assignment, detailed views for specific cases, and tools for block and tagging management. Collaborated with the backend team to integrate data via **REST API**.
- Throughout these initiatives, prioritized **clean and maintainable coding practices**, focusing on performance optimization and **web security** to deliver a high-quality and secure web application.
- **Developed a Case Management System** for fraud monitoring, handling alerts and cases with dashboards and user settings. Implemented a dynamic, localized UI, integrated graph libraries, and created **reusable components**, achieving a 30% decrease in bounce rate.
- Contributed to cross-functional efforts with the development team to deploy new features, leveraging **CI/CD pipelines** for efficient deployment and ensuring timely delivery of updates with my strong analytical skills.
- **Automated Testing:** Created automated tests and **unit tests** to ensure code quality and reliability. Developed and maintained a suite of tests to support continuous integration and delivery processes.
- Ensured **web security** best practices were implemented throughout the development process, safeguarding user data and maintaining compliance standards

Project Engineer at CustomerXPS | MySQL, Oracle, Shellscript, Unix **Jun 2019 - Feb 2021**

- Managed 5 successful DC to DR and DR to DC migrations, coordinating closely with cross-functional teams and clients to ensure zero downtime.
- Built complex shellscripts and **Mysql procedures** for fetching a data from CBS to FRMS for day-1

PROJECTS

AVIRAMAN24 WEBSITE [↗](#) | React, Node, Tailwind CSS, Redux

2024

- Enabled secure authentication by integrating **REST APIs**, **JWT**, and **MongoDB**, ensuring user data protection and streamlined access control.
- Developed a dynamic and responsive website for resilience coaching programs, including features like a hero section, testimonial carousel, fees/charges component, and an 'In Media' section with blogs and videos.
- Designed and implemented a testimonial section using **Framer Motion** for smooth animations and **Tailwind CSS** for styling. Added continuous looping with hover-pausing effects.
- Built the 'Fees and Charges' section inspired by a pricing table, focusing on clean, minimal design for clarity and usability.
- Created an SEO-optimized, responsive layout using **Next.js**, ensuring seamless performance across devices and browsers.
- Collaborated with a motivational speaker and resilience coach to create an engaging and user-friendly platform.

FOOD VILLA APP USING REACT.JS [↗](#) | React Redux

2022

- Developed a high-performance web application with React.js, leveraging modern features to optimize user interactions and engagement.
- Optimized the application with Parcel Bundle, ensuring efficient performance and responsiveness.
- Established seamless browsing and ordering features, enhancing user engagement.
- Added innovative functionalities such as a search mechanism, infinite scrolling, shimmer UI

MOVIE DISCOVERY PLATFORM [↗](#) | React.js, Javascript

Mar 2022 to March 2023

- Designed and launched an advanced Movie browsing web application using IMDB API, fortified with immersive features such as dynamic shimmer UI effects, sophisticated filtering, and an intuitive search engine
- Integrated additional features, including shimmer ui, complex filter and search mechanism.
- Made it responsive by utilizing SCSS and mixins, ensuring seamless user experience across all devices, bolstering the project's versatility and accessibility.

EDUCATION

Roland Institute of Technology

Bachelor of Technology - BTech - CGPA - 7.9

2014 – 2018

Berhampur, Odisha

TECHNICAL SKILLS

Languages: JavaScript, Shell, Typescript, SQL

Technologies/Frameworks: HTML5, CSS3, MongoDB, React, NodeJS, Bootstrap, Tailwind

Developer Tools: VS Code, SQL Developer, Workbench, IntelliJ, CI/CD Pipelines

CERTIFICATION

- * Udemy certified React Complete Master 2024 (Udemy) * Github Co-Pilot Professional certificate (Github) * Attention to Detail * Generative AI by Microsoft * Agile Coding * System Design (Namste DEV)
