## COURSEWORK / SKILLS

- |              |              |               |         |
|--------------|--------------|---------------|---------|
| • React.JS   | • CSS3       | • EcmaScript6 | • Linux |
| • JavaScript | • Redux      | • MySQL       | • GIT   |
| • HTML5      | • TypeScript | • Oracle      | • Agile |

## EXPERIENCE

**Senior Software Engineer at CustomerXPS** | JS, Reactjs,Tailwind **Jun 2022 - Present**

- Designed and implemented a complex search and filtering feature in Product, reducing response times by 40%.
- Streamlined cutting-edge optimization strategies within Product platform, significantly boosting efficiency and user satisfaction metrics, including a 30% decrease in bounce rate and a 20% increase in user engagement.
- Directed cross-functional efforts with the development team to deploy new features in the application, resulting in a 10% spike in weekly active users
- Identified and addressed a pivotal project obstacle, optimizing workflow and ensuring on-time delivery within a demanding timeline.
- Handled the Database and created a responsive complex Form feature using React and Material UI and JavaScript.

**Software Engineer at CustomerXPS** | MySQL, Oracle, Shellscript, Unix **Jun 2020 - Jun 2022**

- Managed 5 successful DC to DR and DR to DC migrations, coordinating closely with cross-functional teams and clients to ensure zero downtime.
- Built complex shellscripts and Mysql procedures for fetching a data from CBS to FRMS for day-1

## PROJECTS

**FOOD VILLA APP USING REACT.JS** [🔗](#) | React Redux **2022**

- Developed a high-performance web application with React.js, leveraging modern features to optimize user interactions and engagement.
- Optimized the application with Parcel Bundle, ensuring efficient performance and responsiveness.
- Established seamless browsing and ordering features, enhancing user engagement.
- Added innovative functionalities such as a search mechanism, infinite scrolling, shimmer UI, and order features.
- Successfully transformed the platform into a preferred choice for food enthusiasts

**ADVANCED YOUTUBE APP** [🔗](#) | React, Router,HTML, CSS **Mar 2021 to March 2022**

- Designed and launched an advanced YouTube web application for an immersive viewing experience.
- Integrated additional features, including infinite scroll, live chat , and an advanced search mechanism.
- Elevated the user experience by providing a sophisticated platform for curated video content

## EDUCATION

**Roland Institute of Technology**

*Bachelor of Technology - BTech - CGPA - 7.9*

**2014 – 2018**

*Berhampur, Odisha*

## TECHNICAL SKILLS

**Languages:** JavaScript, Typescript, SQL

**Technologies/Frameworks:** HTML5, CSS3, MongoDB, React, NodeJS, Bootstrap, Tailwind

**Developer Tools:** VS Code, SQL Developer, Workbench, IntelliJ, Canva

## COURSEWORK

- \* Open Source Software \* Debugging and Development Tools \* Advanced Prompt Engineering \* User Interfaces  
\* React Testing Library \* Agile Coding \* Developing Android Apps \* Version Control \* Webpack \* System Design
